## REPUBLICAN NOMINATIONS IN ORDER AT CHICAGO

### BALLOTING WILL NOT BE REACHED TODAY CONFEREES MEET, BUT NO REPORT READY

(By Associated Press.)

CHICAGO, June 9.—Throughout both sessions today of the Progressive convention the fear was apparent that the Republicans would reach the nomination of Roosevelt before the Progressives could. It was understood that Senator Fall of New Mexico, was patiently waiting on the Republican convention until it came time for him to arise and place the colonel's name in nomination.

"The radical" element of the Progressives seemed largely responsible for the so called "Roosevelt drive," which apparently permeated the convention.

The conservative element however seemed willing to await further action on the part of the Republicans.

The second session today began shortly after three o'clock with the delegates more cheerful owing probably to the appearance of the sun which has remained hidden since the convention began.

Reading of the platform was concluded and within a short time it was believed it would be approved without important changes.

Rapid nomination speeches at the Republican convention placing various favorite sons names before the body were followed with interest by the Progressive leaders.

The reading of the two final planks in the Progressive platform calling for a leader "who acts" caused a wave of Roosevelt enthusiasm lasting many minutes.

### HUGHES' NAME FIRST PUT IN NOMINATION

(By Associated Press.)

CHICAGO, June 9.—After adoption of a platform with only minor changes the Republican convention proceeded with nominations. Hughes' name being first presented by Whitman, who was frequently interrupted. One remark caused a six minute demonstration when he mentioned Taft's name.

Previously to the beginning of nominations the convention heard the peace conferees report which was noncommittal, although containing mention of Roosevelt.

The Hughes nomination was swiftly followed by that of Root, by Butler, Burton, by Willis, and Weeks, by Lodge. Each name caused a demonstration, that for Burton being confined principally to Ohio. It was stated the convention planned to take two ballots before recessing, but it was not believed the nomination would be made until late, if today.

#### NOMINATION OF BURTON

The first nomination was that of Burton placed forward as the man "loved by his friends, feared by his antagonists and respected by all."

"It is no longer disparagement of any of the eminent Republicans who are candidates before this convention," said Gov. Frank B. Willis, of Ohio. "When I say that no man in America is better fitted for the high office of president by natural ability, by breadth of vision, by wide acquaintance with world-problems, by successful experience by high purpose and lofty character than is Ohio's candidate."

In obedience to the command of a united party in our state and voicing the unanimous sentiments of her delegation, I present for your consideration Ohio's choice for the presidency that scholar, leader, statesman, that citizen of the world—with another we can win, with him we cannot fail. I nominate for the office of president of the United States, Theodore E. Burton."

#### NOMINATION OF WEEKS

John Wingate Weeks, of Massachusetts, was nominated by Senator Lodge as a candidate who will command support beyond the strict limits of the party and receive it from all men who sympathize with our purposes. "We must have a man who is in thorough accord with Republican principles," said Senator Lodge. Our candidate must be a man who believes in the protection of American rights by land and sea and who will maintain an honest and real neutrality. We must have a man who believes in American policies and the protection of American interests, who is American through and through. Such a man, in every fibre of his being, is the candidate I present to you.

### JUNE CROP REPORT GIVEN OUT TODAY

FIRST OFFICIAL FORECAST OF  
THE HARVEST IN LEADING  
PRODUCTS

(By Associated Press.)

WASHINGTON, June 9.—First official intimation of the size of this year's spring wheat crop are more definite information as to size of the winter wheat crop now being harvested were given today by the department of agriculture in its June crop report. In addition a forecast was given of the prospective production of oats, barley, rye, apples and peaches. These production forecasts were made by the bureau of crop estimates which based its calculations upon the condition of the growing crops on June 1 as reported by its thousands of correspondents and agents throughout the country. The total yield probably will be above or below these estimates as conditions from now until time of harvest improve or decline.

A summary of the June crop report for Nevada, as compiled by the bureau of crop estimates, is as follows:  
Winter wheat forecast, 609,000 bushels; production last year, 572,000 bushels.  
Spring wheat forecast, 970,000 bushels; production last year 1,088,000 bushels.

### RESCUE EARNINGS ARE KEEPING UP

PRIVATE ADVICES FROM SAN  
FRANCISCO SAY THE NET FOR  
MAY WILL BE \$12,000

Net earnings of the Rescue-Eula for the past month are reported to be equal to the income of the previous month in spite of the extensive development in the mine. The figures are given as \$12,000 compared with \$12,700 for April and \$7,900 for March, the first month of production.

Goldfield Consolidated reports estimated earning of \$52,000 and Jumbo Extension \$30,000 for the same month.

Oats forecast, 566,000 bushels; production last year, 585,000 bushels.  
Barley forecast, 464,000 bushels; production last year 516,000 bushels.  
Hay condition 80, compared with the eight-year average of 95.

Pasture condition, 82, compared with ten-year average of 95.  
Apples forecast, 17,000 barrels; production last year 40,000 barrels.

The first price given below is the average on June 1 this year, and the second, the average on June 1 last year. Wheat, 132 and 166 cents, per bushel. Oats, 69 and 61. Potatoes, 150 and 11. Hay, \$12.80 and \$6.80 per ton. Eggs, 28 and 24 cents per dozen.

### BORAH GOES VISITING MAY BE COMPROMISE

(By Associated Press.)

CHICAGO, June 9.—The Progressive convention completed consideration of the platform section by section, but without voting on final adoption. A conference committee is understood to be watching the situation to determine whether there is any further use to try to get together with the Republicans. This will depend, it is understood, whether the latter proceed to nominations or desired further parleys.

During the session Borah visited and made a speech which is regarded by the delegates to be a sign of "a friendly spirit between the conventions." Perkins said he could not know what significance was attached to the visit.

Some leaders suggested that Borah might be the compromise nominee suggested by the Republicans in their conference report. Later the leaders conferred on the course to be followed by the convention should it decide to be regulated by the action of the Republicans. Throughout the session frequent references to Roosevelt caused storms of applause and shouts, "we want Teddy."

The conferees agreed that if the Republicans would not make the nomination the Progressives would transact other routine business.

### TWO BANDITS DIE ON THE SCAFFOLD

MEMBERS OF VILLA'S BAND OF  
CUTTHROATS PAY PENALTY  
OF DEATH

(By Associated Press.)

DEMING, N. M., June 9.—Two followers of Francisco Villa, the outlawed Mexican leader, were hanged this morning. Governor William C. McDonald on May 15, four days before the original date for the execution granted a reprieve in compliance with a request from President Wilson, to permit an investigation into the conduct of the trial, and by the governor's reprieve the execution was sent for June 9. Francisco Alvarez and Juan Sanchez were executed and five others were granted a reprieve.

The seven men were tried in the district court here and convicted of first degree murder for their part in the raid on Columbus, N. M., March 9, in which seventeen soldier and civilian Americans were killed, several wounded and a number of buildings destroyed. Three months later they were to pay the extreme penalty.

The condemned were: Jose Rangel, Juan Sanchez, Eusebio Renteria, Taurino Garcia, Jose Rodriguez, Francisco Alvarez, Juan Castillo.  
At the trial counsel contended that the defendants had no knowledge of where they were going at the time of the raid and that they were forced to follow Villa under penalty of death.

Jose Rangel, who was wounded and carried into court April 24, when sentence was imposed, made a plea for mercy from his cot. The prisoners have been in the state penitentiary at Santa Fe for safe keeping.

#### NYE COUNTY DOES NOTHING TO IMPROVE THE ROADS

Park V. Perkins, vice-president and general manager of the American Carrara Marble company, returned home by auto last evening after spending the afternoon in Tonopah. Speaking of road conditions in the vicinity of Carrara Mr. Perkins said his company didn't have much cause for complaint now for, since the advent of the Belmont Mining company through leasing the Moore, the marble company does not have to spend so much money in road building that property

NEW YORK, June 9.—J. Grant Lyman convicted of using the mails to defraud investors was sentenced to one year and a half in the Atlanta federal penitentiary.

### NO RACE SUICIDE APPEARS EVIDENT

FIGURES OF LARGE FAMILIES  
SHOWN BY RECENT  
REPORTS

(By Associated Press.)  
BERLIN, June 9.—The latest available statistics do not indicate that race suicide is on the increase in Berlin. February figures show that five mothers, ranging in age from 40 to 45 years, gave birth respectively to their sixteenth, seventeenth, eighteenth, nineteenth and twentieth child. Three women had their fourteenth child, eleven bore their thirteenth, eight their twelfth, five their eleventh and seven their tenth. The records tell of 13 births of fourteen pair of twins in February.

The marble company has completed three miles of railroad track to connect the quarries with the main line of the Las Vegas & Tonopah railroad and expects to be in shape for shipping in the course of the next few weeks.

PARTS OF ALL KINDS OF EQUIP-  
MENT SHIPPED FROM THE  
UNITED STATES

(By Associated Press.)  
RUSSIAN HEADQUARTERS, June 9.—American automobiles, auto-trucks and motorcycles are to be found in great numbers all along the Russian front. At an aviation camp are stored dozens of motors and spare parts for aeroplanes—all American. Similarly at every point behind the front a profusion of products of various sorts testify to the activity of American manufacturers in grasping trade opportunities opened to them by the war.

### CANADIANS USEFUL IN ENGLISH WOODS

MILLIONS OF ACRES OF FOREST  
INVITE THE DESTROYING  
AXE

(By Associated Press.)  
LONDON, June 9.—Expert Canadian lumbermen are scattered through many forest of England cutting down trees for the purpose of "making a battering ram wherewith to win the war." These brown, little backwoods men—half soldier and half trapper—were brought to England from the Dominion because of their knowledge of the forests, to turn into a war asset the vast and valuable stretches of British lumberland. Apart from the timber proper, which is so much in demand for military purposes, the by-products are valuable, for they include tanning bark, turpentine and pitch.

CHICAGO, June 9.—Women delegates were victorious in striking from the Progressive platform the word "Male" in the declaration that "every male citizen is charged with the duty of defending his country." The word "His" was changed to "Our."  
The Progressive amended platform plank on woman suffrage declares: "for the full rights of suffrage by both federal and state action."

### RAISING THE FARES ON BERLIN TROLLEYS

INCREASED COSTS ESTIMATED AT  
50 PER CENT IS THE  
CAUSE

(By Associated Press.)  
BERLIN, June 9.—Street car lines in many parts of Germany hope in the near future to be able to increase their tariffs by about 50 per cent in order to meet increased costs. At a congress of street car men held recently in Berlin resolutions were unanimously adopted in which it is pointed out that the present universal tariff of 10 pfennigs (2 1/2 cents) was adopted in the nineties, whereas even before the war the expenses of most companies had risen by 50 per cent and probably will rise even more after the war. A decided deterioration of all lines is to be expected, the resolutions point out, unless they are allowed to raise prices to 15 pfennigs (3 3/4 cents).

(By Associated Press.)  
The second largest boulder of antimony ore ever found in Nevada was brought into Lovelock Monday by L. B. Snipes, says the Review Miner.

It weighs about 640 pounds, and is said to run about 70 per cent. The largest piece of antimony ore ever found in the state was discovered by James Yerington near Austin. It weighed more than a ton and was exhibited at the Chicago World's Fair.

(By Associated Press.)  
The semi-monthly shipment of antimony bullion from the Tonopah Mining company amounted to 35 bars valued at \$50,000.

The first work of the Canadians was the marking down and surveying of certain tracks of forest land, "blazing" the trees—mainly the soft wood trees of pine and fir—and so arranging their scheme of attack that the beauties of the rural scenes would not be unnecessarily marred. With the arrival of the plants and milling machinery the lumbermen began turning out wood of all sorts of forms, from railroad ties to matches.  
There are still left in England two and a half million acres of forest the Crown woods alone covering about 125,000 acres.

PEACE TALK

(By Associated Press.)  
BERLIN, June 9.—Ambassador Gerard has repudiated an interview recently attributed to him on the subject of Wilson's peace efforts, according to the Overseas Agency. The statement says: "Gerard stated to a staff member of the Vossische Zeitung that he never made the utterances attributed to him and quoted in the Reichstag."

### KEY OF PROSPERITY LIES IN CHEMISTRY

LONDON TAKING STEPS TO DIS-  
PUTE THE SUPREMACY OF  
BERLIN

(By Associated Press.)  
LONDON, June 9.—Chemistry's importance in the future prosperity of the nation has been recognized by the University College, London, which has just completed the construction of a new chemical laboratory, with an installation and reference library which it is intended shall become one of the most complete and comprehensive of its kind in the world.  
The faculty of the college in carrying out its plans for the advancement of chemical science in Britain sought for ideas in the principal modern laboratories both in this country and abroad. The basic idea was to provide for the needs of independent research and the experimental department has been designed for the carry-out of tests on a large scale with the view of utilization of new discoveries in connection with the industries of the country. The government has during the war taken advantage of the facilities offered and much valuable work has been achieved.
